

SMART FACTORY

Packaging

PRODUCT

Optimize your box picking, material handling, and packaging with a complete packaging solution featuring a robot. Relieve workers from repetitive tasks and heavy lifting by automating material handling operations. We offer a fully automated station with the primary function of automatically constructing boxes or packaging from flat cardboard, then precisely placing products inside and sealing the package.

SPECIFICATION

Universal Robot cobot, stand, magazine, carton erector and sealer, end-effector.

From 47 575 EUR
